NEW PRODUCT INNOVATIONS

A BRIGHTER FUTURE FOR CLEANING

Add sachets to bottles with water, shake, ready to use!

Reduce carbon footprint by 95% Compared to transporting liquid concentrates. PVA Hygiene products result in no transportation of water.

No single-use plastic Our bottles are designed to be durable and last a lifetime. Through reusing our bottles, the system reduces waste by 90% compared to using traditional commercial cleaning solutions.

Biodegradable, pre-dosed formulations No risk of chemical overdosing, which has the potential to negatively impact the environment.

Planet friendly packaging Compostable and recyclable options of packaging are available that are all FSC-Certified.

THE ORIGINAL CLEANBOOT

"The Original CleanBoot fits over your existing dirty boots or shoes, allowing you to keep the outside out and the inside clean."

1. Heel Loop for easy ON/OFF application.
2. Reinforces the heel seam for additional protection against wear and tear.
3. Form fitting, durable construction, 100% Neoprene.
4. Extra Grippy sole for better traction on finished flooring such as carpet, hard-wood & tile.
5. Strengthened stitching & glued seams allow for a super durable construction throughout the overshoe.

No more single use plastic

Traffi[®]

LXT CARBON NEUTRAL GLOVES

The Traffi LXT Gloves are certified as carbon neutral. This means that at no extra cost, your LXT glove has zero impact on the environment, to the point of delivery. Not only are the Traffi LXT gloves carbon neutral, but they have been treated with Life Extending Technology for extra longevity.

Longer lasting gloves = reduce waste and reduce costs.

All Traffi LXT gloves come in plastic free packaging.

Washable up to 3 times at 30 degree heat for increased re-use

IN HOUSE PRODUCTION OF SIGNAGE & GARMENTS

Over the years we have invested in our in-house production capabilities.

The Bryson Studio team offer you a comprehensive service including artwork design, print and heat transfer all under one roof. Nothing is outsourced, giving you peace of mind that your products are printed exactly as you want them.

Our high-quality signs and branded PPE workwear are designed & printed at our Gatwick HQ by a dedicated team of experts.

MAKE SUSTAINABLE CHOICES

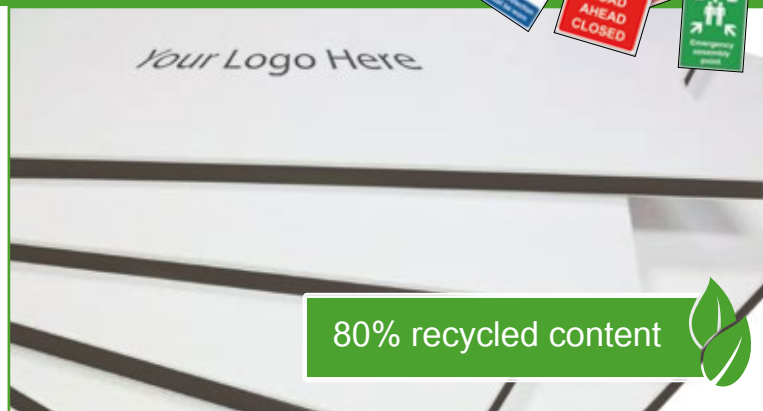

100% recycled polyester

Compared to standard polyester EcoVis produces:

50% less emissions 50% less carbon dioxide

Don't miss the perfect opportunity for corporate advertising whilst protecting your staff on site.

80% recycled content

ECOboard

Environmentally friendly outdoor display board.

Foam PVC sheet with 80% reclaimed black core.

Smooth and even, hard and resilient.

Excellent vinyl adhesion.

100% Recyclable.

Support British Manufacturing with Bryson's In-House Signage Range.

PPE FOR WOMEN IN CONSTRUCTION

Bryson is focused on ensuring women in construction are provided with the correct PPE.

Clothing, footwear, gloves and glasses that fit correctly ensures women are included within the construction industry.

Sustainability

Updates

Driving you to a greener future!

Our commitment to being the Sustainable Supplier of Choice was emphasised this month as we welcomed the first two of many EV's into our Bryson delivery fleet!

Our goal is to have a fully electric Bryson fleet by Q1 2023.

We will save over **11 tonnes** of CO₂ carbon emission this year!

On track to achieving PLASTIC FREE packaging

This quarter we are set to launch our new packaging that is plastic free. This means all Bryson direct packaging that leaves our warehouse.

This change will remove over **100km** of plastic from our packaging per year!

Carbon Negative – an industry first!

This quarter, Bryson will be the first supplier of safety, fixings and protection products to be carbon negative on scope 1 & 2 emissions.

This means we're going the extra mile to offset more CO₂ than we are required.

We also reduced our total carbon footprint YoY by **-13.2%**.

We're working hard to reach our net zero goal in 2030.
